DEPARTMENT OF GENETICS, STANFORD  
UNIVERSITY SCHOOL OF MEDICINE,  
PALO ALTO, CALIFORNIA  
PROFESSOR J. LEDERBERG.

*Stiles*

Dear Professor!

In our future work we are planning to analyse the genetical structure of Salmonella. We should be very much obliged to you for sending us strains of Salmonella:

1. TM2 typhimurium, its derivative  $F_{I3}^+$  / SW I346 /
2. SW 685 paratyphi B, its derivative  $F_{I3}^+$  / SW I343 /
3. SW I2I4 typhimurium TM-9  $S^T-2$  derivatives:  
 $T^-Tyr^-$  / SW I259 /;  $F_{I3}^+T^-Tyr^-$  / SW I372 /.

Thanking you in anticipation I remain

respectfully yours

*N.G. Likhoded*

Metchnikov Institute of Vaccines and Sera,  
Moscow, 64, per. Metchnikova, 5a.

*We would be very happy for you to receive  
and work with these cultures. The nearest source is  
Dr. P. H. MÄKELÄ  
Dept of Serology and Bacteriology  
University of Helsinki  
Helsinki, Finland  
She will send you these strains.*
